Re: Yosemite Creek Superfund Site, San Francisco, CA  
Generator Names: U.S. Cellulose and International Paint, LLC

Dear Mr. Reiner,

Please accept this letter in follow up to my e-mail communications with Andrew Hemlinger to formally respond to EPA's letters of February 21, 2008 to provide the current contact information for the parties identified as U.S. Cellulose and International Paint, LLC.

Please note the following contact details for the above referenced parties:

**Doug Butler, Senior Environmental Affairs Director**

Akzo Nobel Coatings Inc.  
2031 Nelson Miller Parkway  
Louisville, KY 40223-2138  
Tel. 504-254-0503  
doug.butler@loc.akzonobel.com

**Debra Rubenstein, Regulatory Counsel, SSHE**

ICI Group Services Inc. on behalf of Akzo Nobel Inc.  
10 Finderne Avenue  
Bridgewater, NJ 08807  
Tel. 908-203-2839  
debra\_rubenstein@ici.com

Please copy Mr. Butler and me on all correspondence related to this matter. As I mentioned in my voice mails and in e-mail communications, we are in the process of conducting an investigation of the various transactions that have lead the above referenced companies to be identified in this case. In the event that a determination is made that there are others who are better situated to respond to this matter, we will provide additional contact information.

At this time, neither the successor to U.S. Cellulose nor International Paint, LLC has any information concerning the PRP group or any other PRPs in relation to this matter. I would appreciate it if EPA could provide information concerning the other PRPs so that we can explore whether a group is forming to work on the potential resolution of this matter.

**Mr. Chris Reiner, USEPA**  
**Page 2 of 2**

Thank you for your attention to this matter.

Respectfully submitted,

Debra J. Rubenstein
